PROFESSIONAL SUMMARY

I am a Software Engineer with a year experience specializing in full-stack development. Proficient in modern Java frameworks and JavaScript with various backend technologies, with a strong foundation in algorithms and data structures as well as Object Oriented Programming paradigm. while demonstrating ability to build scalable applications using Spring Boot, Node.js, React, NextJs and various database technologies.

TECHNICAL SKILLS

- Programming Languages: Java, Python, GoLANG, JavaScript.
- Frontend: React, Next.js, HTML5, CSS3, Tailwind.
- Backend: Node.js, Nest.JS, Express.js.
- Databases: PostgreSQL, MongoDB, MySQL.
- ORMs: TypeORM, Mongoose.
- Testing Tools: Junit, Jest, viteTest, pytest.
- Others: RESTful APIs.

PROFESSIONAL EXPERIENCE

Software Engineer, April 2024 - Current.

Semicolon Africa - Lagos.

PROJECTS

E-Commerce Platform

- Built an e-commerce platform using React on front-end and using Java Spring-boot as the backend
- Implemented user authentication, product management, and order processing.
- Deployed and maintained the application using netlify services.

Contactsmgr

Contact manager

- Developed a real-time full-stack contact manager application where users can communicate without registration, ensuring a seamless and instant use of the application features.
- Built using React, Tailwind, Springboot enabling real-time, bidirectional communication between users and the server.
- Deployed the application on netlify for the frontend,. ensuring scalability and reliable uptime.

SCHOOL

- Diploma in Computer Engineering, Yaba College of Technology

WORK EXPERIENCE

- Hardware Engineer. RoyalBrightness (2018 -2020)
